Introduction

In this articles game, students practice matching articles (a, an, the) with nouns.

Procedure

Divide the students into groups of three or four.

Give each group a set of article cards and a set of picture cards. Students will also need a pen and paper for keeping score.

Ask the students to shuffle the two sets of cards separately and spread them out face down on the table in two sets.

Students take it in turns to turn over an article card and a picture card.

If the article matches with the noun, the student scores a point. The student can then score an extra point by making a sentence with the article and noun.

The student then keeps the cards and has another turn.

If the cards don't match, the student turns them back over, keeping them in the same place.

The game continues until all the cards have been matched.

If students are unsure whether two cards match, they can ask you for help.

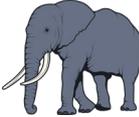

The student with the most points at the end of the game wins.

Finally, go through the correct answers with the class and review how articles are used and deal with any problem words, e.g. an hour.
