Introduction

Here is a fun worksheet activity to help students practice tag questions and short answers.

Procedure

Give each student a copy of the worksheet.

Tell the students to write the name of a classmate in each sentence that they think best matches the statement.

Explain that the students can only write down the same name twice. This is to ensure they speak to as many different partners as possible.

When the students have completed their sentences, they ask their classmates tag questions to see if their statements are right or wrong.

Students receive one point for each correct statement.

The student with the most correct statements is the winner.
