**Activity Type**
Reading, matching and speaking activity, group work

**Language Focus**
True affirmative and negative statements with the verb 'to be'
Subject-verb agreement
Parts of speech

**Aim**
To make true affirmative and negative statements with the verb 'to be'.

**Preparation**
Make one copy of the cards for each group of three and cut as indicated.

**Level**
Beginner (A1)

**Time**
30 minutes

---

**Introduction**
Here is a verb 'to be' game for beginners to help them practice forming affirmative and negative sentences with the present simple. This activity also helps students understand subject-verb agreement and how to use the verb 'to be' to make true statements.

**Procedure**
Divide the students into groups of three. Pairs or groups of four are also possible.

Give each group a set of cards and a piece of paper for keeping score.

Ask the students to shuffle the cards and deal out 15 cards each, leaving the rest in a pile face down on the table.

The players then place their cards face up on the table in front of them.

The first player looks at their cards and makes a true affirmative or negative sentence by placing three cards face up on the table and reading the sentence aloud, e.g. 'I’m a student'.

If the sentence is formed correctly and is true, the player wins a point.

Players may indicate to things or people in the classroom to help justify a sentence as being true.

The player then takes three more cards from the pile.

Each player should always have 15 cards until there are no cards left in the pile.

The next player then puts down three cards and makes a true sentence and so on.

If a player cannot make a true sentence, they take a card from the top of the pile, put one of their cards at the bottom, and miss a turn.

The game continues until all the cards have been used.

The player with the most points at the end of the game wins.

As an extension, set a time limit (e.g. five minutes) and have the groups make as many true sentences as they can using the cards. The group with the most correct sentences wins.
