Notes for Teachers

The Pre-intermediate Parts of Speech Teaching Resources eBook

This collection of over 100 teaching resources from the Teach-This.com website provides worksheets, activities, and games aimed at Pre-intermediate level (A2) students. These resources have been created by a dedicated team of highly qualified and experienced English teachers and ESL professionals and have been tried and tested many times in the classroom.

The resources can be used in any general English course and are intended to supplement other materials. These resources are flexible enough to be easily incorporated into most lesson plans and can be used to introduce or reinforce language, practice or revise language structures, or improve core skills.

The book contains a wide range of easy to use, practical, and effective supplementary materials that focus on speaking practice as well as vocabulary or grammar exercises or activities to help students develop their reading and writing skills.

How to Use this eBook

First, scan through the table of contents to select a teaching resource. To make the selection process easy, all resources are categorised according to their relevant language point and are arranged in alphabetical order. The table of contents also indicates the aim of each resource and lists activity types that the students will engage in. Shortcut hyperlinks that quickly and easily direct you to your chosen resource are included.

Each resource comes with detailed teacher's notes that provide key details such as activity types, language focus, aim, preparation requirements, and estimated time duration. The notes also include a comprehensive step-by-step procedure and answer keys, making lessons quick and easy to plan. Each resource comes in a user-friendly and printable A4 PDF format.

Activity Types Explained

Each resource in this eBook falls into one of three categories: worksheets, activities, or games. The worksheets provide opportunities for students to examine form and function and exercises typically focus on either vocabulary or grammar. The activities are designed to provide opportunities for students to practice using the language in more interactive and interesting ways. The games offer students more fun and engaging methods to practice the language and help to liven up lessons.

For each language point covered in this eBook, you will generally be provided with one standalone worksheet, one activity, and one game to help students learn and practice the language in different ways.

Controlled and Freer Practice

Speaking activities in this eBook are labelled as either controlled or freer practice. In the controlled practice activities, students are given the target language to practice in a limited form. These activities are more restricted, and the focus is more on developing accuracy. The freer practice activities provide students with prompts that require them to make meaningful choices before they use the language. This enables students to produce the target language more independently with more of a focus on fluency than accuracy.

Contents

Name	Aim	Activity Type
Abstract Nouns		
1. Which one?	To practice using abstract nouns.	Vocabulary game
Adjectives		
2. A to Z	To practice using adjectives.	Vocabulary game
3. Categorize it	To categorize adjectives and practice using them in sentences.	Vocabulary and speaking game

101. Verb Opposites	To practice verbs and their opposites.	Vocabulary activity

Activity Type

Vocabulary Game: matching, gap-fill (group work)

Focus

Abstract nouns

Aim

To listen to sentences and race to choose the best abstract noun that completes each sentence from the choices provided.

Preparation

Make one copy of the cards for each group of three and cut as indicated.

Time

20 minutes

Introduction

In this fun abstract nouns game, students listen to sentences and race to choose the best abstract noun that completes each sentence from the choices provided.

Procedure

Divide the students into groups of three.

Give each group a set of cards.

Ask the students to shuffle the cards and place them face-down in a pile on the table.

Students take it in turns to pick up a card and read the sentence along with the three abstract nouns to the other group members, e.g. 'BLANK is very important for your health'. 'a. sleep, b. idea, c. lie'.

The group members then race to say which abstract noun best completes the sentence.

The first student to guess the correct abstract noun wins and keeps the card, i.e. **sleep**.

The correct answer is indicated in bold for the reader.

Each student is allowed one guess per card.

If no one says the correct answer, the card is returned to the bottom of the pile to be used again later in the game.

Play continues until all the cards have been guessed correctly.

The student with the most cards at the end of the game wins.
