### Introduction

Here is an elimination style spelling game for students of all ages.

### Procedure

Draw an elimination chart on the board for the number of students in the class.

**Example:**

```
  A
 / \  
B   C
 / \  
D---E
 /   \  
F-----G
```

Give each student a slip of paper and ask the students to write their name on the paper and then hand it back.

Mix up the names. Then, draw the names out one by one and write them in the chart.

Each student competes against the classmate they are paired with in the chart.

Pairs take it in turns to come up to the board.

Give each student a marker or chalk.

Call out a word for the two students to spell.

The first student to spell the word correctly moves onto the next round.

Continue until there is one ultimate champion.

That student is named the class spelling champion until the next time you decide to play.
