### Introduction

Here is a phrasal verbs miming game to help students practice some commonly used phrasal verbs.

### Procedure

Divide the students into groups of four, comprising of two teams of two (Team A and B)

Give each group a set of cards.

Ask the students to shuffle the cards and place them face-down in a pile on the desk.

A member of Team A picks up a card, stands up and reads out the introduction on the card which explains what information the other students are looking for, e.g. 'You are looking for a place and two phrasal verbs'.

The student then performs the mime on the card to Team B who has two minutes to guess the information they are looking for.

If Team B successfully guesses all the vocabulary, they score two points.

If not, the other student in Team A can try to answer for one point.

Then, a student from Team B picks up a card to mime to Team A and so on.

This continues with teams taking turns to mime until all the cards have been used.

The team with the most points at the end of the game wins.
