Introduction

In this *for* and *since* game, students practice completing sentences with *for* or *since* and time expressions.

Procedure

Divide the students into pairs.

Give each pair a set of sentence cards and a set of time expression cards.

Ask the students to shuffle the two sets of cards separately and spread them out face-down on the table in two sets.

Students then take turns turning over one sentence card and one time expression card.

If the time expression matches and can be used to form an appropriate sentence, the student reads the sentence aloud using *for* or *since*, keeps the two cards and has another turn.

If the cards don't match or a sentence is formed incorrectly, the student turns the two cards back over, keeping them in the same place.

It's then the other student's turn to play.

The game continues until all the cards have been matched.

The student with the most cards at the end of the game wins.
