### Introduction

In this enjoyable worksheet activity, students find out about one another's holiday habits by asking and answering present simple yes/no questions with 'Do you...?'

### Procedure

Give each student a copy of the worksheet.

Go through the items on the worksheet and elicit the present simple yes/no questions the students need to ask to do the activity, e.g. 'Do you take a lot of photos when you go on holiday?'

Students then go around the classroom asking each other questions from the prompts on the worksheet.

When a classmate replies 'Yes, I do' to a question, the student writes down their name and asks a follow-up question to gain more information, noting down the answer in the last column.

If a classmate answers 'No, I don't', the student repeats the question with other classmates until one of them says yes.

Tell the students that they can only have the same name once (or twice) This is to encourage them to speak to as many different partners as possible.

When everyone has finished, students give feedback to the rest of the class on their classmates' holiday habits. Any interesting findings can be discussed in more detail.
