### Introduction

In this present simple questions activity, students ask and answer *Wh* questions about daily routines.

### Procedure

Give each student a copy of the worksheet.

Begin by eliciting the present simple *Wh* questions from the worksheet.

Ask a few students some of the questions and have them respond by making a sentence.

Example:

A: What time do you wake up? B: I wake up at 7:30 a.m.

Next, divide the students into pairs.

Students then take turns interviewing their partner and writing their answers in sentence form in the spaces provided.

Encourage the students to ask the questions in a random order so that their partner has to really listen.

When both students have finished, they compare their daily routines and look for similarities and differences.

Pairs then take turns reporting back to the class on the information they found out.

As an extension, students write a paragraph about their partner's daily routine in the present simple.

Ask your partner present simple <i>Wh</i> questions about their daily routine.
