## Introduction

In this communicative tag questions activity, students conduct a class questionnaire using tag questions.

## Procedure

Give each student a copy of the worksheet.

Explain that the students are going to conduct a questionnaire using tag questions, but first they need to complete the questions on their worksheet with positive and negative tags.

Students must also create two more tag questions at the bottom of the worksheet.

When the students have completed all the tag questions, go through the tags and check the students' own questions.

## Answer key

- |                |                 |
|----------------|-----------------|
| 1. were you?   | 7. weren't you? |
| 2. didn't you? | 8. haven't you? |
| 3. did you?    | 9. can you?     |
| 4. do you?     | 10. will you?   |
| 5. aren't you? | 11. have you?   |
| 6. can't you?  | 12. don't you?  |

Students then walk around the classroom asking the tag questions to students who they think can confirm the information in each question.

When a classmate answers appropriately, confirming the information in the question, the student writes down their name in the 'Name' column next to the item.

The student then asks a follow-up question to gain more information. This information is written in the last column.

Tell the students that they can only have the same name once. This is to encourage them to speak to as many different partners as possible.

When everyone has finished, ask students to give feedback to the rest of the class on what they found out. If there are any interesting findings, encourage the students to discuss them in more detail.
